## R2GATE surgical guide is called R2GUIDE

### CONVENIENT

No need to use metal sleeves or spoons. There is an internal structure for drill stopping and hex controlling, enabling convenient and precise surgery.

### PRECISE

R2Guide is 3D printed directly from your diagnoses. The unique structure of R2 Guide (for drill stopper, implant position and hex control) are printed as one-body for improved precision and convenience.

### OPTIMAL IMPLANT POSITIONING

R2GATE allows prosthetic driven treatment planning for optimal positioning of the implant. It perfectly integrates all necessary data (CBCT, STL, etc) into the ultimate surgical guide for surgery.

### ULTIMATE TREATMENT PLANNING

The surgical guide is made using state of the art 3D printing technology based on the result of R2 treatment planning.

### ONE DAY IMPLANT SERVICE

Prosthetics and implants in one visit.

### INTEGRATION with MAJOR IMPLANT SYSTEMS

R2Guide can be produced and used for all other major implant systems.

ACE Surgical, BioHorizons, Dentium, Dentsply, Sirona, DIO, Henry Schein, Implant Direct, Osstem, Straumann, Zimmer Biomet, more

## ONE-STOP SOLUTION FOR DIGITAL DENTISTRY

Established in Adelaide in 2009, A2Dental is a full-service laboratory specialising in crowns, bridges, implants, dentures and partial frames using the latest digitalised work processes.

With over 50 years of combined experience, our highly experienced team of technicians design, mill and produce in-house using fully digitalised equipment such as 3 Shape D2000 scanner / VHF S1, S2 milling machines, and 3D printers. Finalising all dental lab works in house reduces turnaround time and eliminates outsourcing. We focus on innovation and technology to produce the best possible product for your patients at affordable and competitive prices.

Our mission is to support dentists with fabrication and provision of exceptional dental prosthetic solutions. A2 Dental lab values close relationships with dentists, offering technical supports, case discussions, technology improvements and more.

A2 Dental lab works closely with suppliers and partners. Their support enables us to use high quality materials to deliver the best outcome for your patients.
