Designed 
in Switzerland

Global presence

Enbio Group AG is a part of global investment group with a turnover of EUR 200M.

About Enbio

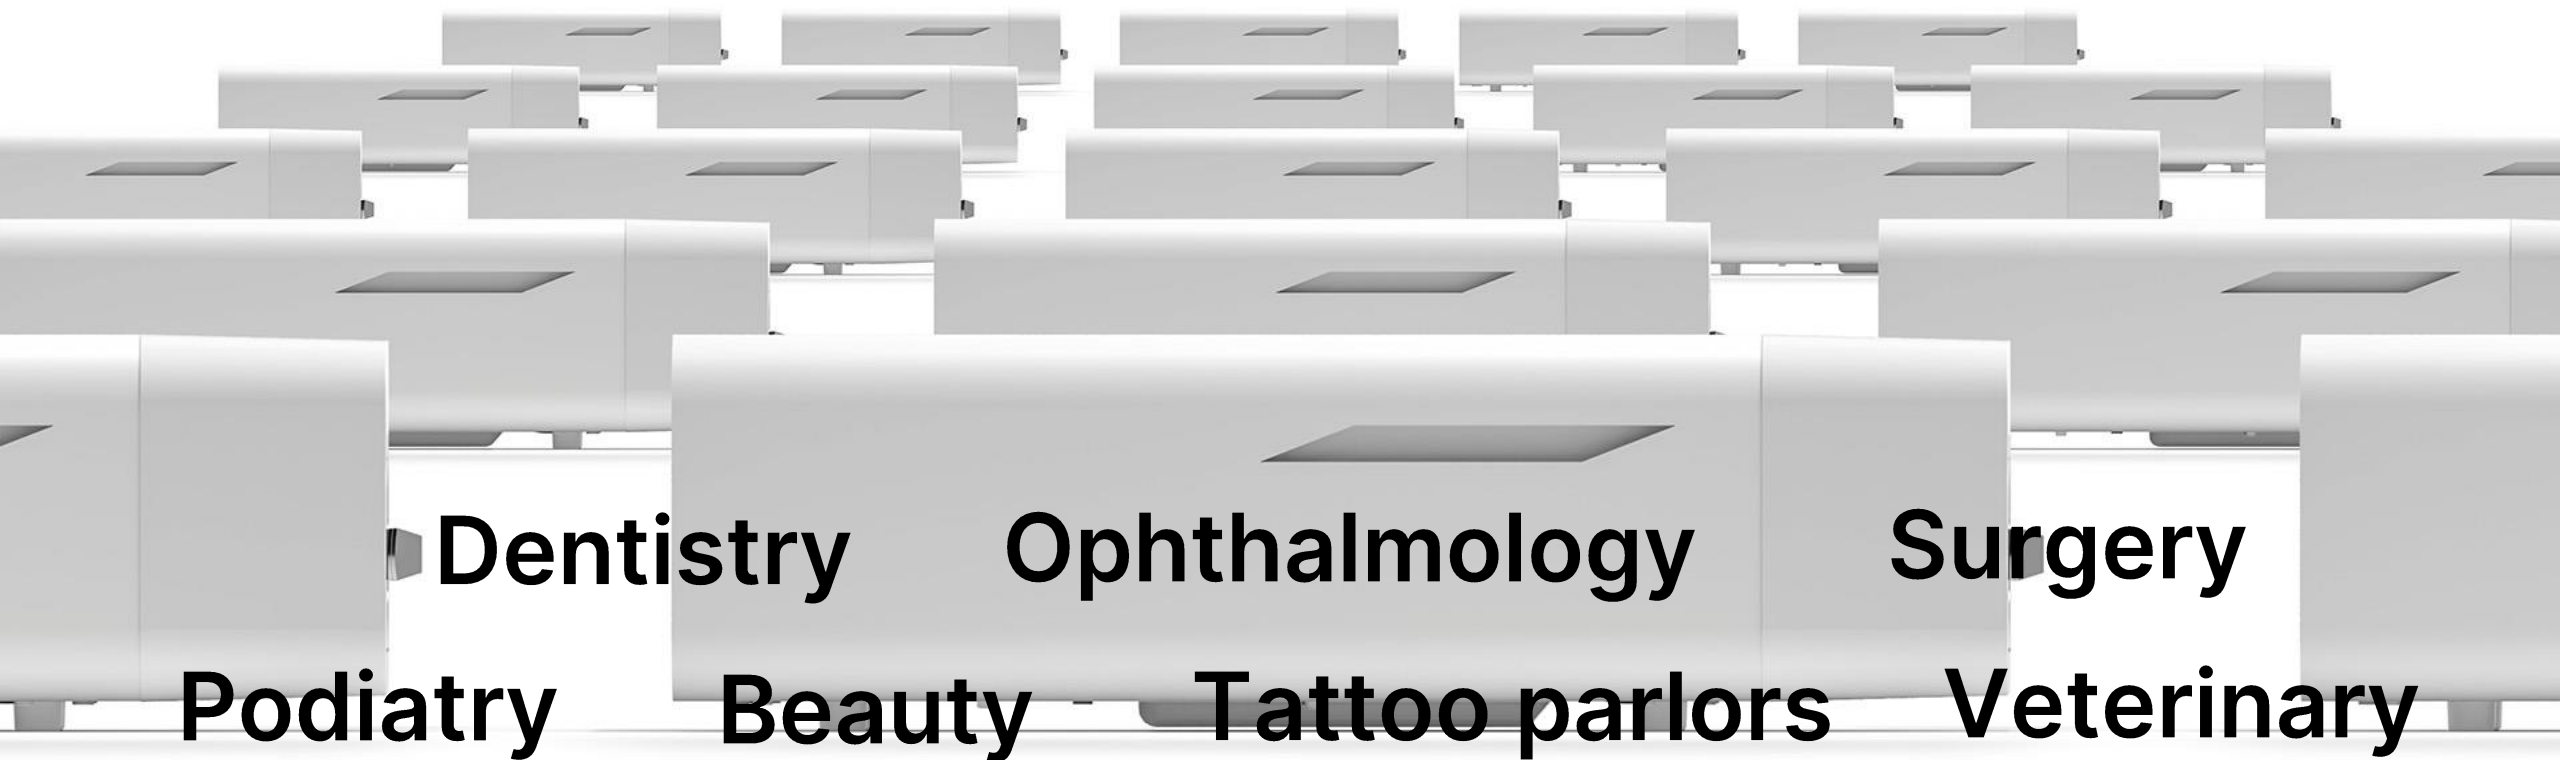

We have 25 years of experience in combining state-of-the-art biotechnological solutions with fantastic designs. Thanks to our passion and the persistent pursuit of purpose, our Enbio steam sterilizers are the ones taking over Europe right now.

Worldwide presence

Enbio autoclaves are manufactured in the EU and distributed globally through logistics centers covering Europe, North America and the Middle East.

7 min

The fastest

Why would you waste an hour on something you can do in **7 minutes**? Enbio **B Class** air-removal (**pre-vacuum**) autoclave is the fastest sterilizer on the market. It is also gloriously intuitive and easy to use.

Sterilization process takes **4 min.**
Sterilization between visits.
Immediately ready for the next sterilization.

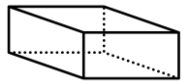

Fast sterilization: time is money

- **Sterilization between patients**
- **Urgent sterilization**
- **New offer – sterilization in demand**
- **Personification of sterilization**
- **reducing Staff overtime**
- **much faster sterilization workflow in busy, multi-room clinics**

Spacious

It will fit any interior thanks to its compact size (56x25x16 cm). At the same time, it has the space for all the standard instrumentss, in their packaging or without it.

Technical data – Enbio^S

Class	B
Power supply	220-230V AC / 50/60Hz
Max. power consumption	15A
Working pressure	2,1 Bar
Max. pressure	2,3 Bar
Max. process temperature	137°C
Process chamber volume	2,7l
Tray inner diameter	28 x 18 x 2,8 cm
Programs	134° C FAST, 134° C, 121° C

Max. packages amount (circa)	8
Max. weight of the load	0,5 kg
Mass	15 kg
Level of security	IP20
Data archiving	USB Memory stick
Water supply*	external

*demineralized or distilled water only

Features

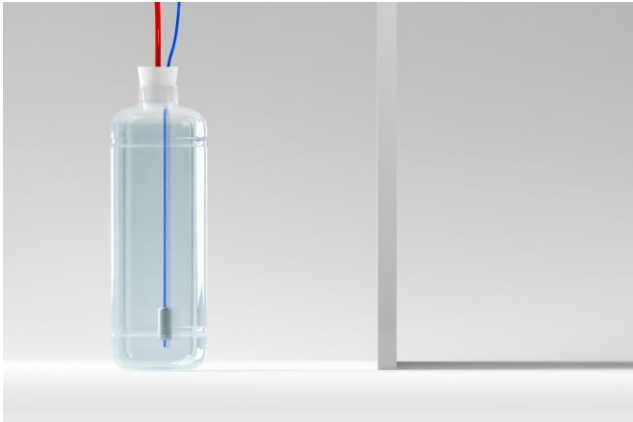

Power supply

Enbio works with any typical electrical outlet.

Data archiving

All process data are automatically written to a USB disk.

Water supply

Enbio uses distilled water from external tank. With Enbio Magic Filter, water can be recycled.

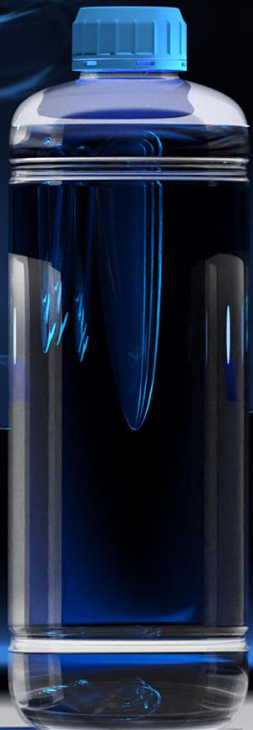

Process reports

Enbio Data Viewer (included) allows generating and printing detailed process reports from the data on USB.

Enbio Magic Filter: forget about water

Imagine a race car covering a long distance on a teaspoon of fuel. Enbio autoclaves are like that. With Enbio Magic Filter as a standard equipment, they can run up to 1000 processes on just 1 liter of demineralized water. No tap or sink required.

**1 liter
of demineralized
water**

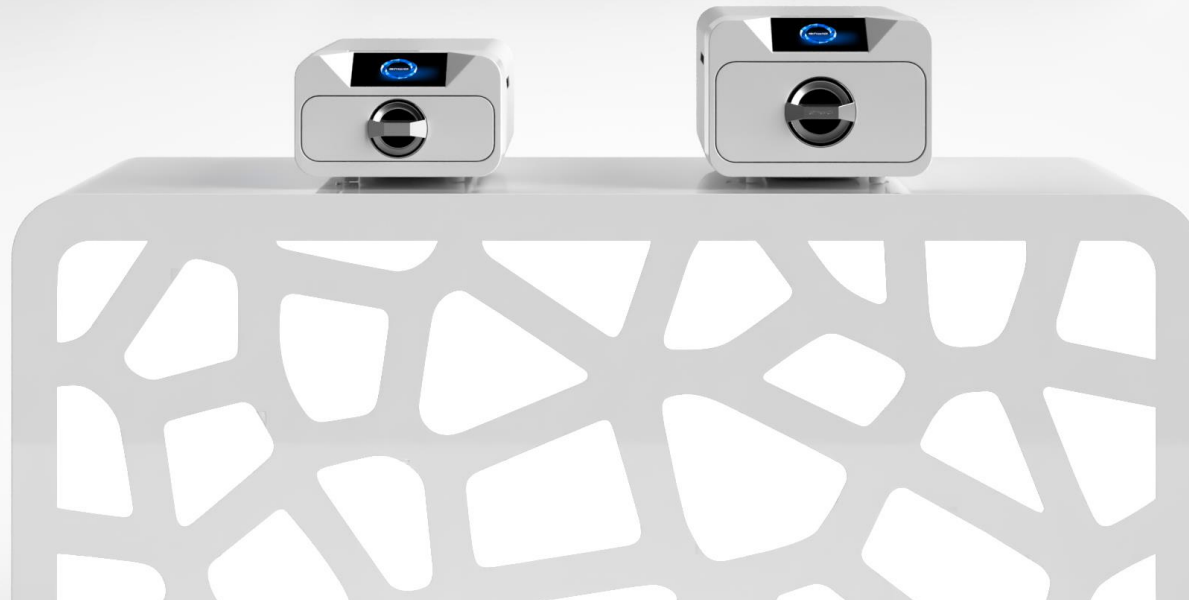

1000 processes

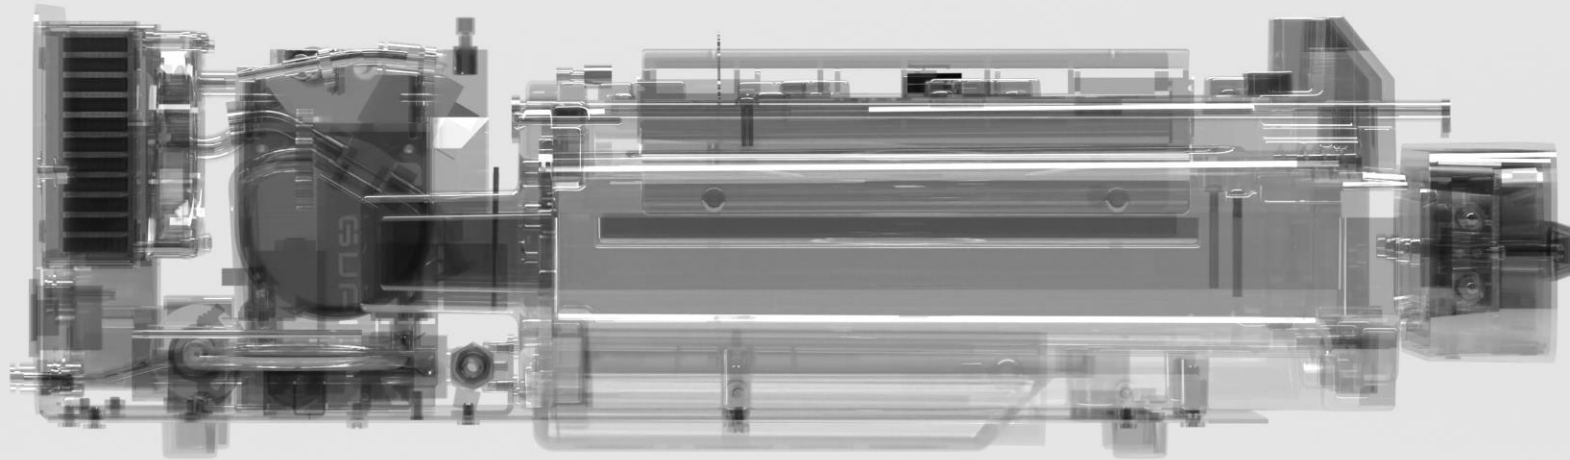

Enbio, as a medical device class IIb, meets all requirements related to the 93/42/EEC “Medical devices” directive.
Enbio, as a B class autoclave, meets all requirements of the ISO EN13060 “Small steam sterilisers” standard.
